Hear what our students have to say:

*For someone who doesn't have any experience in the industry, this course is really helpful. I came from Japan and wanted to look for a job. This coffee course gave me confidence and skill needed to apply for a job. I work in a CBD café within 1 month after I did the class. Thank you for the support and the attention during my training session to improve my skills. I was really happy and impressed with the results I achieved.*

...Rika Nabuchi, Melbourne CBD  
Currently working in Piadina Café

*We had an amazing 400% increase in our coffee sales and 30% in food sales! We had a business broker valued our business and were pleasantly surprised know that our cafe is worth \$100,000 more in a short space of 6 months! Thank you and the course is the best investment we've ever made!* John & Cecil, Bay Diners, Cheltenham, Melbourne
